

NEW

SYSTEM ONE™

Video Room Station

System One R230

Introducing System One™ R230 Video Room Station - an exciting new addition to the System One™ intercom lineup.

In addition to familiar audio intercom features, R230 provides a colour LCD display for video monitoring – all in a standard room station footprint.

When used with a video door station R230 allows you to see and speak to your visitors from multiple video stations around the house.

R230 Video Room Station can be even be installed as a 'masterless' system for front door answering or enjoy additional features when used with a Master station.

Features

- Compatible with all System One systems
- Supports operation with or without a Master
- 5" Colour LCD Display
- Crisp Clear Audio
- High Resolution video feed
- Standard installation size retrofits all Valet and System One room stations
- Digital volume control with independent settings for Music and Communication modes
- Adjustable keypad back lighting
- AUX functions for controlling relays at Master
- Selectable video inputs when used with a Master station
